Subject: Sketches of East German Ports

Date of Report: 9 July 1951

1. As an attachment to this report are being forwarded sketches of fifty smaller East German harbors and loading points which are located either on the East German coastline or on inner waterways which skirt the coast. All these harbors are in good condition, and all can handle barges of up to 300 tons, while most of the harbors can load from 800 - 1,000 tons of material on barges after towing barges into the inner harbor.

2. Sketches of the following harbors are included in this report:

Baabe
Balm-Neppermin
Barhöft
Bartelsbagen
Barth
Bellin
Breege
Bug Nordl
Bug-Südl
